## PROFILE

Self-starter, driven, and eager work ethic. I am always looking for new learning opportunities and growth. Currently looking to find a like-minded group of peers who are not afraid to meet an obstacle head on, and make the impossible, possible.

## PROJECTS

### Homecook'd | [Source Code](#) | [Video Demo](#)

- Built in React/Redux, Node/Express with a MySQL database and a Materialize framework.
- This app is an infrastructure that accommodates community driven events and is one of a kind.
- User interactions are enhanced with Auth0 authentication, Google Maps API and Stripe payment processes.

### TRVLR | [Source Code](#)

- Built in Node/Express and PostgreSQL. I utilized the ejs views as well as some bootstrap framework styling.
- The app allows users to coordinate upcoming trips with friends, family and desired guests. Leaving everyone up to date on the latest bookings and arrangements.
